IP CCTV Installation & Surveillance

IP CCTV Installation & Surveillance Services

Protect what matters most with advanced, reliable surveillance systems from Prime ICT. We design and install professional-grade IP CCTV systems that combine high-definition video, remote access, and smart analytics – giving you full control and visibility over your property, anytime, anywhere.

Why Choose Prime ICT for Your CCTV Needs?

High-Definition IP Cameras

Capture crystal-clear footage with our range of HD and 4K IP cameras – perfect for identifying faces, license plates, and more.

Remote Monitoring

Access live or recorded footage from your smartphone, tablet, or computer – whether you're at home, at work, or overseas.

Motion Detection & Smart Alerts

Receive real-time alerts triggered by motion, line-crossing, or facial recognition, depending on your system's capabilities.

Commercial & Residential Solutions

From retail stores and warehouses to private homes and apartment complexes – we cater to all property types.

Scalable & Future-Proof Systems

Our IP-based systems are built for scalability. Add more cameras or integrate with alarms, access control, or NVRs as your needs grow.

Our CCTV Installation Process

Free Onsite Assessment or Remote Quote

We assess your property layout and surveillance goals.

Customised System Design

Tailored camera placement, network planning, and storage solutions.

Professional Installation

Clean, compliant, and efficient installation by certified technicians.

Training & Support

We guide you through using your system and offer ongoing tech support.

Maintenance Plans Available

Optional service plans to ensure your system runs optimally long-term.
